Council of Prince Edward County
Att K. White, Clerk

Dear Sirs,

I find it alarming that you are asking for assistance after years of study and meetings and input from Special Committees. This is exactly why you must act because with 15 members of Council you will never agree. I come from Markham where we had 8 Councillors for 250.000 people and decisions were made weekly. Here even now there are Councillors who feel that 83% of the people do not form a majority. If everyone would have voted it would still have been 83%.

I live in Hallowell but my address is Hillier. If anyone asks me where I live I must tell them "just north of Wellington" nothing else makes any sense so for me Wards mean nothing but plan "NEW" seems to make the most sense.

You have almost all promised to make this file a priority before the election so do it !

Yours sincerely

Charles & Arline de Bourbon
