

Notes:
 Details including engineered trusses, ICF & rebar and in-floor heating should be designed by qualified professionals.

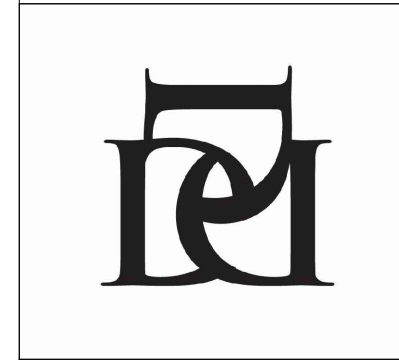

Plans are for permit issuance. Alterations to the plan will require revised drawings and building department approval.

Plans are not to scale. Contractors should use written dimensions only.

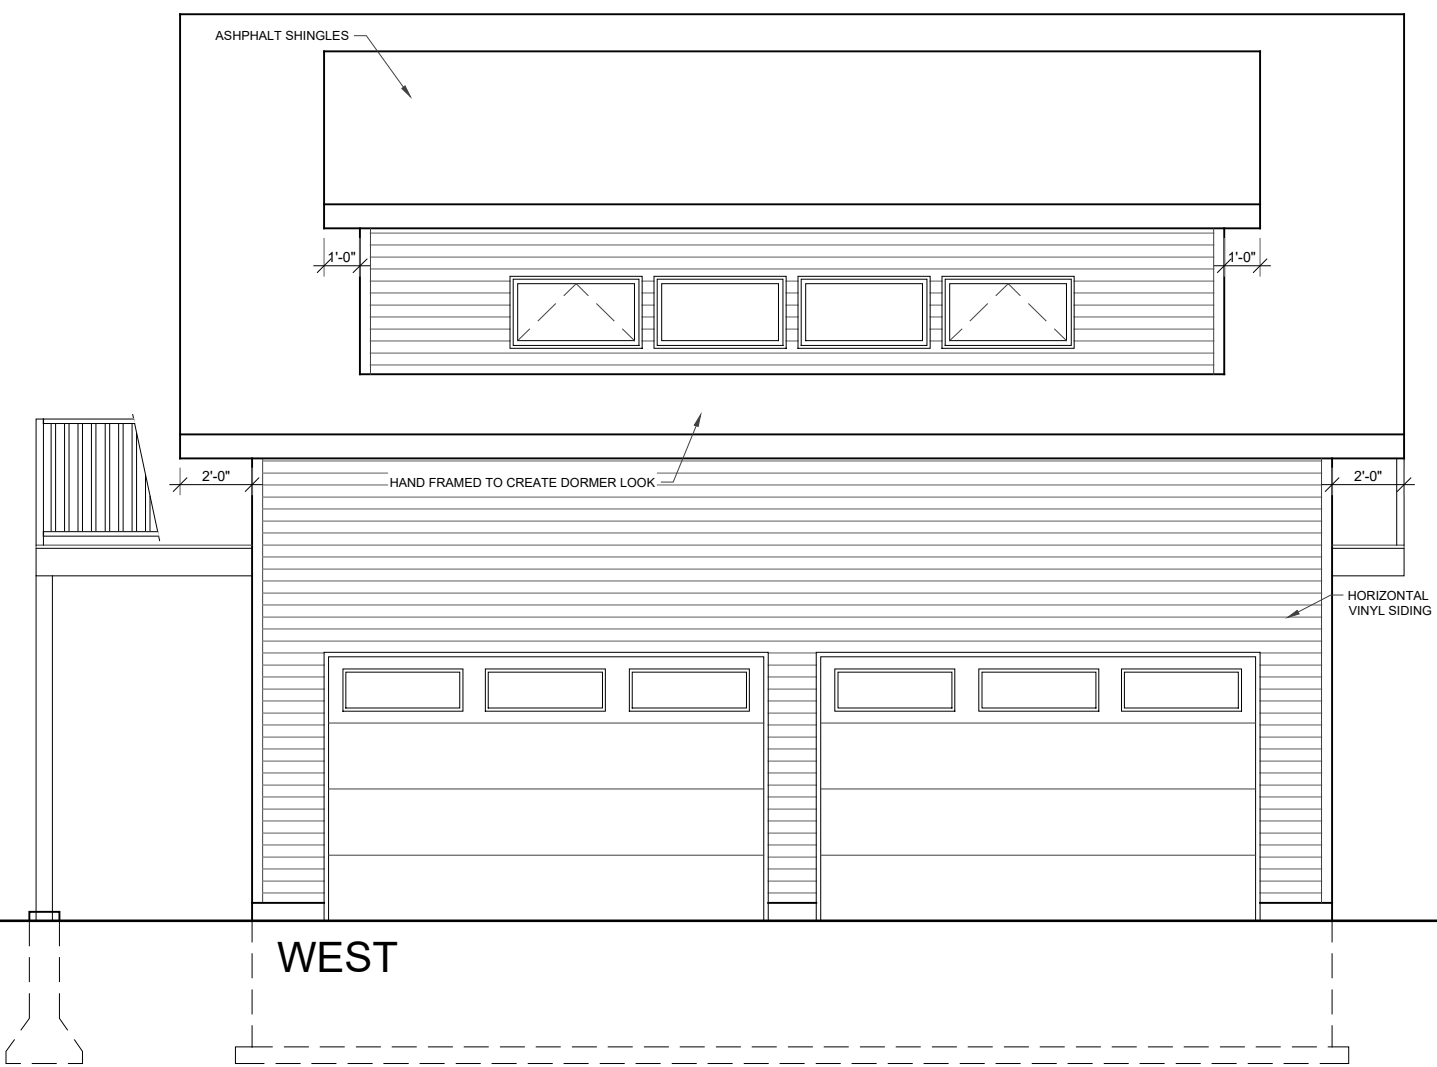

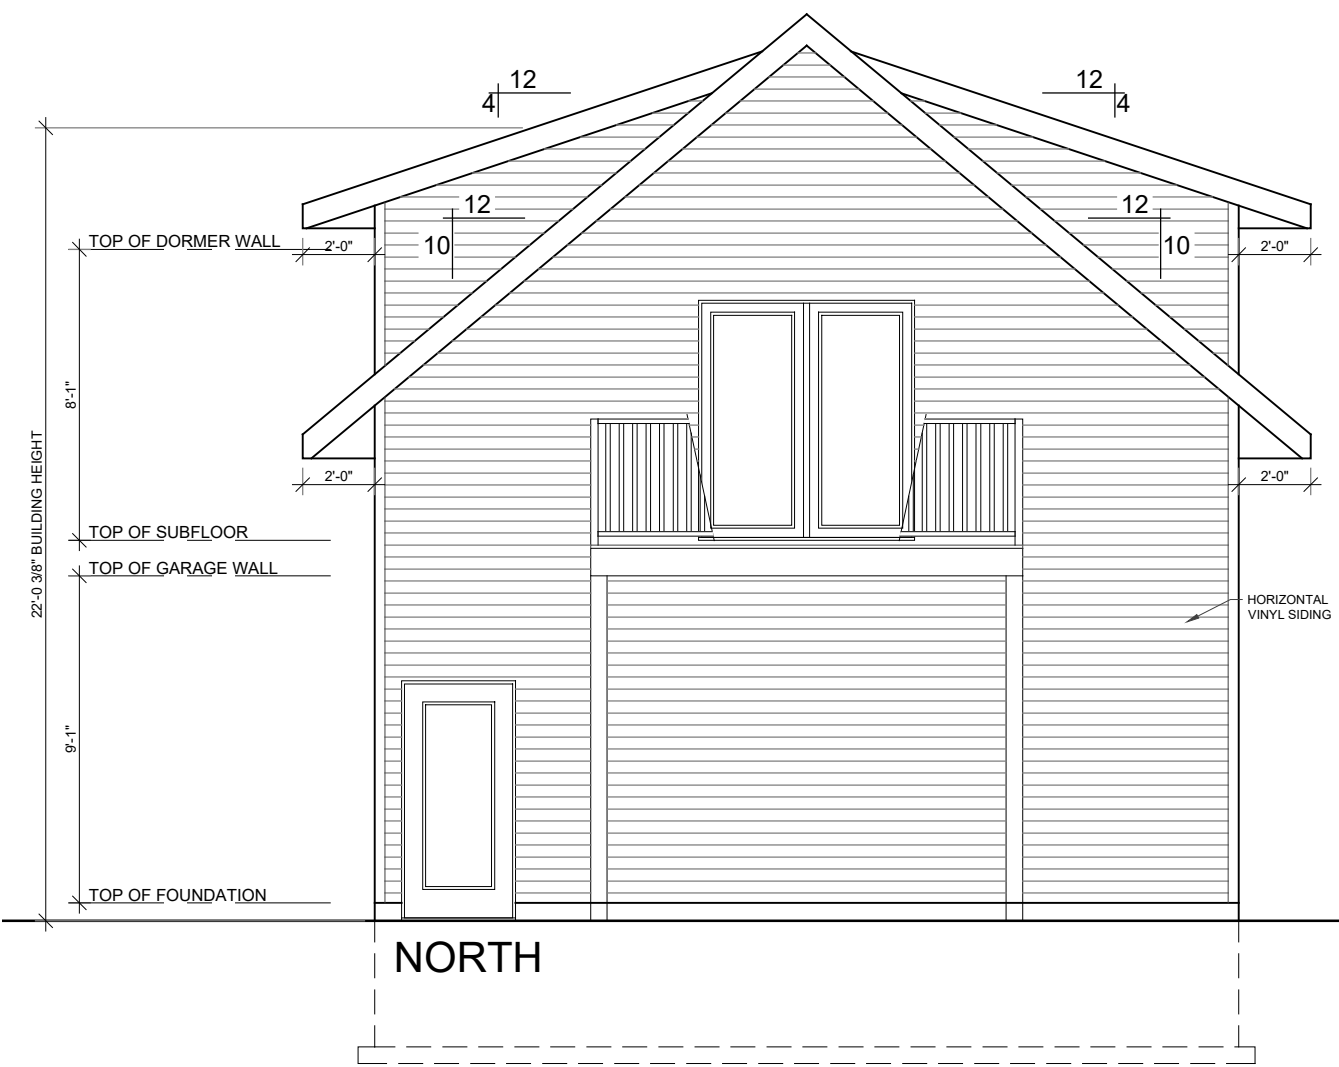

Andrew Snelling
 Andrew Snelling BCIN: 111876 has reviewed and takes responsibility for the design work on behalf of a firm registered under subsection 3.2.4. of Divisions C of the 2012 Ontario Building Code. Firm BCIN: 109545
