

**NOTICE OF STUDY COMPLETION-TRANSPORTATION ENVIRONMENTAL STUDY REPORT  
PRELIMINARY DESIGN AND CLASS ENVIRONMENTAL ASSESSMENT**

**Highway 62 and Prince Edward County Road 1 Intersection Improvements, GWP 4077-20-00**

The Ontario Ministry of Transportation (MTO) has retained Stantec Consulting Ltd. to undertake a Preliminary Design and Class Environmental Assessment (Class EA) Study for intersection improvements at Highway 62 and Prince Edward County Road 1, at Huff's Corners in Prince Edward County. The purpose of the study is to identify a Recommended Plan that addresses current and future transportation needs at Highway 62 and Prince Edward County Road 1 as part of the Ministry's ongoing review of safety and operational needs for the provincial highway network.

A Recommended Plan has been identified for this study and has been documented in a *Transportation Environmental Study Report* (TESR) that is now available for a 30-day public comment period.

The Recommended Plan includes a roundabout. The Recommended Plan was presented at an in-person Public Information Centre (PIC) held on January 25, 2024.

**THE PROCESS**

This study followed the requirements of a Group 'B' project under the *Class Environmental Assessment for Provincial Transportation Facilities* (2000), and included opportunities for public input throughout, including at two PICs. A summary of the study process, including the identification and evaluation of alternatives, the Recommended Plan, anticipated environmental impacts, proposed mitigation measures, and consultation activities carried out as part of this study, has been documented within a *Transportation Environmental Study Report* (TESR).

**The TESR is available for public comment from November 21 – December 20, 2024 at the following locations and on the project website ([www.Hwy62PEC1.ca](http://www.Hwy62PEC1.ca)):**

## **REQUESTS TO THE MINISTER OF ENVIRONMENT, CONSERVATION AND PARKS**

In addition, a request may be made to the Minister of the Environment, Conservation and Parks for an order requiring a higher level of study (i.e., requiring an individual/comprehensive EA approval before being able to proceed), or that conditions be imposed (e.g., require further studies), only on the grounds that the requested order may prevent, mitigate, or remedy adverse impacts on constitutionally protected Aboriginal and treaty rights. Requests on other grounds will not be considered. Requests should include the requester's contact information and full name.

Requests should specify what kind of order is being requested (request for additional conditions or a request for an individual/comprehensive environmental assessment), how an order may prevent, mitigate or remedy potential adverse impacts on Aboriginal and treaty rights, and any information in support of the statements in the request. This will ensure that the ministry is able to efficiently begin reviewing the request.

The request should be sent in writing or by email to the following as well as to the project contacts above:
