SUPPLEMENTARY INDICATORS OF SUSTAINABILITY, FLEXIBILITY AND VULNERABILITY

The following is a summary, adapted from the Chartered Professional Accountants of Canada Statement of Recommended Practice (SORP) 4:

- A government (including a municipality) may choose to report supplementary information on financial condition, to expand on and help explain the government's financial statements.
- Supplementary assessment of a government's financial condition needs to consider, at a minimum, the elements of sustainability, flexibility and vulnerability.
- Vulnerability in this context may be seen as the degree to which a municipality is dependent on sources of funding outside its control or influence or is exposed to risks that could impair its ability to meet its existing financial obligations both in respect of its service commitments to the public and financial commitments to creditors, employees and others.
- Vulnerability is an important element of financial condition because it provides insights into a municipality's reliance on funding sources outside its direct control or influence and its exposure to risks. A municipality whose vulnerability is relatively low has greater control over its financial condition.
- For each element of financial condition, the report on indicators of financial condition should include municipality-specific indicators and municipality-related indicators. It may be useful to also include economy-wide information when discussing financial condition.

ADDITIONAL NOTES ON WHAT FINANCIAL MEASURES MAY INDICATE:

Own Source Revenue as a % of Total Revenues (Less TCAs)

Indicates the extent to which a municipality has a high proportion of revenues for its own sources, reducing its impact to a change in transfers from other levels of government.

Own Source Revenue per Household

Indicates the demand for resources and the municipality's ability and willingness to provide resources.

Average Municipal Property Taxes per Average Residential Household

Indicates the level of taxes on residential households for municipal purposes.

Average Municipal Property Taxes per Average Residential Household as a % of Average Household Income

Indicates the portion of a ratepayer's income used to pay municipal property taxes.

NOTES

- 1* 2020 to 2024 assessment uses phase-in assessment based on 2016 property values.
- 2* Average tax rates are calculated where necessary when amalgamations occur.
- 3* Household and Population data are as reported by the municipality on Schedule 02 of the FIR.
- 4* Median Household Income - Source: Ministry of Finance - 2025 OMPF
- 5* Total Revenues include revenues from other municipalities.
- 6* The Cumulative Annual Growth Rate has been measured over a three year period. Infrastructure Ontario uses a five year period.
- 7* Total Municipal Expenses exclude amounts for other municipalities
- 8* MFCI index - Source: Ministry of Finance (2025 OMPF Calculation). This index is available for northern and rural municipalities only.

RESIDENTIAL TAXES

of Residential Households Residential CVA and corresponding household counts are provided by OPTA (excludes the City of Toronto). Residential assessment includes: Single Family, 2 - 6 Units, Farm Residential and Recreational (where included). Note: does not include vacant land.
 Avg Municipal Property Taxes Per Avg Residential Household
 Avg Total Property Taxes per Avg Residential Household
 Avg Total Property Taxes per Avg Residential Household as a % of Median Household Income (Tax Effort) If labeled (Excl. RDUs) Recreational units are excluded.
 An average household assessment is calculated by taking the sum of the CVA for these residential groups divided by the corresponding households.
 # of Residential Households Excluding Recreational Properties (Excl. RDUs)
 Avg Municipal Property Taxes Per Avg Residential Household (Excl. RDUs)
 Avg Total Property Taxes per Avg Residential Household (Excl. RDUs)
 Avg Total Property Taxes per Avg Residential Household (Excl. RDUs) as a % of Median Household Income (Tax Effort) An estimated tax rate for each tier (i.e. lower tier, upper tier and school) is applied to the average household assessment to calculate the averages taxes per household by tier. (the estimated tax rates are provided by OPTA).
