Re: Proposed Public Safety Radio Communications Tower
13 Coleman Street
Ameliasburgh, Ontario
K0K 1A0

Dear Owner,

The Corporation of the County of Prince Edward is proposing to construct a new public safety radio communications tower on municipally owned property located at:

13 Coleman Street
Ameliasburgh, Ontario
K0K 1A0

Tower Coordinates

44°03'34.07" North
77°25'58.56" West

You are receiving this notice because your property is located within the prescribed public consultation distance of the proposed tower site.

The purpose of this project is to improve radio communications used by Prince Edward County Fire and Rescue during emergency incidents, firefighter paging, mutual aid responses, training activities and day-to-day emergency operations throughout the municipality.

Reliable radio communications are essential for firefighter safety, coordination between responding emergency personnel and timely emergency response. The proposed tower will improve radio coverage in areas where existing communications are limited or unreliable.

The proposed installation consists of:

- 40 metre self-supporting communications tower
- Underground utility servicing
- Lightning protection
- Controlled access

This project is being undertaken in accordance with:

Innovation, Science and Economic Development Canada (ISED)
Radiocommunication Act
ISED Client Procedures Circular CPC-2-0-03
Prince Edward County Policy PD-320-Location-of-Communication-Towers-Policy

Although radio communication towers are federally regulated, ISED requires proponents to undertake public consultation before construction proceeds.

The County of Prince Edward welcomes comments from nearby property owners during the consultation period.

Please submit written comments within 30 calendar days, **Friday September 18, 2026, end of day.**

Comments may be submitted to:
